Greetings to the Graduates

As we go through life, our progress is marked by special moments when we turn corners and new horizons open before us. This convocation of scholars celebrates the happy observance of such an important turning point in your lives.

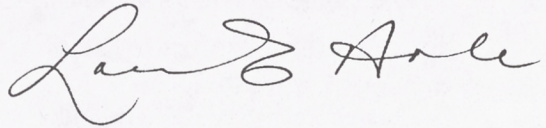

The ceremony is steeped in customs that have been passed down to us over the centuries. It is sedate, colorful, traditional, and meaningful. We hope you enjoy the experience and participate in the goodwill that permeates a day to be remembered.

By conferring its degrees, the University confirms that you have successfully fulfilled a rigorous course of study and have earned the right to enter into the collegiality of educated women and men. Be proud of what you have done, and be grateful for what the University has done for you.

Understand that the University of Alberta is not just the

campus which you know so well. It is everything that our graduates of yesterday, today, and tomorrow accomplish to make our world a better place to live in. Today you join a worldwide community of alumni, a hundred thousand strong, whose support and interest is vital to the enhancement of the quality and the value of the degrees which you receive today. Keep in touch, and never forget the University that nurtured the mind you use every day. You entered to grow in wisdom. You leave the better to serve your community and yourselves.

Welcome and Congratulations.

Lois E Hole
Chancellor

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge. The faculty's task is facilitated by their colleagues in the academic staff, the Faculty Service Officers, the Administrative Professional Officers and the Librarians, and the University's dedicated support staff.

The faculty, numbering some 1,600, is responsible for creating programs of study, for teaching, and for evaluating the learning of the student body, both undergraduate and

graduate. In addition, faculty members are responsible for the scholarly reputation of the University by preserving and sharing knowledge and by pursuing new ideas and knowledge through their research.

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. Your achievement deserves praise. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. We would remind you of the advice given to graduands by Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

Congratulations from the Faculty and Staff!

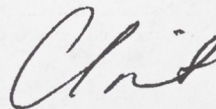

I am delighted to join with your families and friends in congratulating you on the successful completion of your studies. You have reached this important milestone through a great deal of effort and hard work. You can be proud of your accomplishments.

Graduates of the University of Alberta. . . you have two supreme advantages. One is that you live in Canada. The second is that you are graduating from this fine institution. Today, you leave with a credential that opens new doors and exciting opportunities. You also take with you the memory of having attended a university that in the conduct of its own affairs provides some striking lessons in how to succeed in today's world.

For many of you, convocation may mark the end of your formal program of studies. I sincerely hope though, that you will continue to pursue learning throughout your lives.

On behalf of Premier Klein and the Government of Alberta, I wish you all success and good fortune in the future.

Sincerely,

Clint Dunford, Minister
Advanced Education and Career Development

Honorary Degree Recipient

An articulate and thoughtful leader of the Aboriginal and treaty rights movement in Canada, Harold Cardinal of Richmond, British Columbia has had a multifaceted and influential career as an advocate, teacher, mentor and student.

As an author, Mr Cardinal published *The Unjust Society* and *The Rebirth of Canada's Indians*. As a departure from books on Indians, his *Unjust Society* gained influence some thirty years ago by offering a cogent Indian perspective. As a political leader he served as president of the Indian Association of Alberta and, as vice-chief of the Assembly of First Nations, he represented prairie First Nations during the Constitutional Conferences. In an administrative capacity he has served as executive director for the Aboriginal Resource Development Group and Director General of Alberta Region, Department of Indian Affairs and Northern Development. He has dealt with pressing problems of First Nations communities by working as a consultant, researcher and negotiator for a variety of organizations. He currently serves as advisor/negotiator for the Treaty 8 First Nations of Alberta. As an academic, he was an assistant professor at the University of Saskatchewan. He holds an LLB (Saskatchewan) and an LLM (Harvard) and is currently enrolled in the LLD program at the University of British Columbia.

Although Mr Cardinal has lived in Ottawa, Edmonton and Vancouver and has studied at Harvard, he remains close to his community. After serving as president of the Indian Association, he worked for his home community and Treaty 8 organizations. He follows traditional Cree culture and his comprehension of sacred knowledge is of value to younger Natives facing social issues. He has dedicated much of his life to teaching Aboriginal and non-Aboriginal peoples about Aboriginal and legal governance. His ability to carry out political and legal discussions between Cree and English is unsurpassed, and he was recently asked to facilitate for the Office of the Treaty Commissioner in its work with Saskatchewan Elders.

At a crucial time in the modern history of Indian people, Mr Cardinal provided incisive leadership, and had a profound effect on subsequent and ongoing relations between the Aboriginal peoples and the larger society. His analysis of the federal government's 1969 White Paper on Indian Policy laid a foundation for a very different future for Aboriginal peoples, and Canadian society as a whole can thank Harold Cardinal for his reasoned and consistent analysis. Today, Mr Cardinal continues to influence political, social, and cultural developments in First Nations communities. He stands out as a twentieth-century trailblazer for advancing the noble values inherent within Canadian society for the betterment of all First Nations in Canada.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Harold Cardinal:

The Word Carrier (Iapi Oaye). [Nebraska] The Dakota Mission, 1874-1887.

This is a monthly newsletter that was published by and for the Dakota Indians during the crucial transition period when the American Plains tribes moved from a nomadic existence to settlement on the reservations. A bilingual publication, printed in Lakota and English, it encouraged literacy and worldliness on the part of the tribes, while providing much news relating to Indian activities, issues of consequence, and reports from Congress. It is a very rare addition to the Peel Library's extensive primary sources on native North Americans.

Graduates

The list of candidates for degrees and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each Faculty, if attending, is presented first.

God keep our land glorious and free!
O Canada, we stand on guard for thee,

O Canada! Terre de nos aïeux,
Ton front est ceint de fleurons glorieux!
Car ton bras sait porter l'épée,

The Presentation

The Dean of the Faculty of Agriculture, Forestry, and Home Economics asks the candidates for degrees to rise, and presents them with these words:

"Eminent Chancellor and President, on behalf of the Faculties, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."

The Pledge

The President then addresses the candidates in these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

The University Cheer Song

Please join in the singing of the University Cheer Song (words and music are provided on page 55):

Ring out a cheer for our Alberta

Thy legions march enrolled.
Our memories will live forever
Beloved University
We will fight for thee and cheer
And ever hold thine honor dear.

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

Honorary Degree Recipient

Dr James G MacGregor, Professor Emeritus of the University of Alberta, is an internationally renowned researcher in engineering design procedures.

Born in Vegreville, Alberta, he completed his secondary education in Calgary before enrolling in Civil Engineering at the University of Alberta in 1952. He graduated in 1956 as the top student in his class. He completed his Master of Science degree in 1958 and his PhD in 1960, both at the University of Illinois. He then returned to the University of Alberta as Assistant Professor. By 1985 he had been named University Professor and from 1987 to 1990 he served as Chair of the Department. After 33 years of service to the University, he retired as Professor Emeritus in 1993.

Concurrent to his academic career was an engineering consulting career. From 1967 to 1981, he served as principal for Adams and MacGregor Consulting Engineers Ltd. In 1981, with two colleagues, he formed MKM Engineering Consultants of Edmonton and still serves as principal with that firm today. A recent assignment involved

leadership of the team that determined the load and resistance factors (the overall safety level) for the Confederation Bridge.

Dr MacGregor has served on professional committees, including the American Concrete Institute, the American Society of Civil Engineers, and the International Association for Bridge and Structural Engineering for almost 40 years. He has been recognized as the "Voice of Canada" in the world of structural concrete. His textbook, *Reinforced Concrete: Mechanics and Design*, first published in 1987, has become widely adopted at most leading structural engineering universities in North America. Dr MacGregor has held the highest elective office in his field in the Americas as President of the American Concrete Institute. His writing and his leadership in building code activities — he has contributed significantly to the National Building Code of Canada and many American and international standards — have earned him the highest awards available. He was named a Fellow of the Royal Society of Canada in 1992 and in 1998 received an honorary degree from Lakehead University.

Through his dedication to the expansion of the frontiers of knowledge and his tireless efforts to develop better building codes to protect us all, Professor MacGregor has earned worldwide recognition for himself and his University over the past four decades.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Professor James MacGregor:

Hugues de Jouvancourt. *Maurice Cullen*. Montreal, Éditions La Frégate, 1978.

No. 4 of 160 copies printed, with a laid in serigraph especially made by Lorne Bouchard.

Cullen was the first Canadian Impressionist painter, and his earliest important works were exhibited in Montreal in 1897. He became one of Canada's greatest painters, a true interpreter of Montreal's cityscape, particularly of dusk and night scenes which invariably shimmer with light. This lavishly illustrated and hard-to-find volume is the most important study of Cullen.

The list of candidates for degrees, diplomas and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically according to the establishment date of each faculty and degree. The winner of the most prestigious award in each Faculty, if attending, is presented first.

Honorary Degree Recipient

A prolific composer, conductor, producer and director, Mr John Kim Bell of Toronto is founder and president of the National Aboriginal Achievement Foundation.

Mr Bell was born on the Kahnawake Mohawk Reserve near Montreal. Having studied piano, violin and saxophone in his youth, he was conducting Broadway musicals by the time he was eighteen. He holds a Bachelor of Music Degree from Ohio State University and a Performing Certificate in Conducting from Accademia Musicale in Italy.

In 1980, he was appointed apprentice conductor of the Toronto Symphony Orchestra and became, at age 27, the first Aboriginal to conduct a symphony orchestra. He went on to serve as producer and music director of the Israeli-American Opera Company, the Dance Theatre of Harlem and the Eglevsky Ballet of New York among numerous other appointments. He has composed original scores for the CBC, CTV, TV Ontario and PBS Television Network films and documentaries.

Having struggled against financial difficulties and cultural biases in developing his own career in the arts, Mr Bell recognized the need for financial support to help young Aboriginal musicians and performers. In 1985, at considerable personal financial risk, Mr Bell established the Canadian Native Arts Foundation to provide financial assistance to Aboriginal students in the arts and cultural fields. In 1988, he mounted the first full-scale Aboriginal ballet, *In the Land of the Spirits*. In 1994 he created the National Aboriginal Achievement Awards to honor the achievements of Aboriginals in all walks of life. The Native Arts Foundation became the National Aboriginal Achievement Foundation (NAAF) in 1997, reflecting its expanded mandate to provide financial assistance to Aboriginal students in all areas of post-secondary education. Today, NAAF is Canada's largest and most successful organization devoted to scholarship and professional training of native peoples. It has established a trust fund of \$4 million and will award, in 1999 alone, \$1.7 million in scholarships and bursaries to Aboriginal students in fields as diverse as music composition and dentistry.

Mr Bell has received honorary degrees from Lakehead University (1990), Trent University (1992) and Mount Allison University (1994). He was appointed to the Board of the CBC in 1998, and was named a member of the Order of Canada in 1991.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr John Kim Bell:

Boris Kochno. *Le Ballet*. Paris, Hachette, 1954.

Kochno was personal secretary to Serge Diaghilev, the great Russian ballet master, and in this extraordinarily useful book he traces the history of French ballet from fifteenth-century court masquerades to modern ballet. With over 400 illustrations excellently reproduced in photogravure and an original lithograph by Picasso and a Matisse design on the cover, this is a treasurable and uncommon volume on an increasingly popular art.

The list of candidates for degrees, diplomas and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically according to the establishment date of each faculty and degree. The winner of the most prestigious award in each Faculty, if attending, is presented first.

God keep our land glorious and free!

Conferring of Degrees

The Presentation

The Dean of the Faculty of Engineering asks the candidates for degrees to rise, and presents them with these words:

"Eminent Chancellor and President, on behalf of the Faculties, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."

The Pledge

The President then addresses the candidates in these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

The Admission

The Chancellor then addresses the candidates in these words:

"By virtue of the authority vested in me by the Legislature of this Province, and with the consent of this University, I admit you to the degrees to which you are entitled, and invest you with all the powers, rights, and privileges pertaining to such degrees, and I charge you to use them for the glory of God and the honour of your country."

The graduates may be seated.

Presentation of Graduates

The graduates are presented individually to the Chancellor in alphabetical order according to the seniority of their faculty and the establishment date of each program. The University Cheer Song

Please join in the singing of the University Cheer Song (words and music are provided on page 55):

Ring out a cheer for our Alberta
A song of praise to Varsity
For the splendour of our mountains
Our prairies green and gold.
Ranked beneath whose glowing colours,
Thy legions march enrolled.
Our memories will live forever
Beloved University
We will fight for thee and cheer
And ever hold thine honor dear.

Honorary Degree Recipient

The founder and president of Habitat for Humanity International, Mr Millard Dean Fuller of Americus, Georgia, USA, has received international acclaim for his dedication to the eradication of poverty housing and homelessness throughout the world.

A holder of an Economics degree from Auburn University and a Law degree from the University of Alabama, he and a college friend began a marketing firm while still in school. Mr Fuller's business expertise and entrepreneurial drive made him a millionaire by age 29, but as his business prospered, his health and personal life suffered. The soul searching that followed led to a renewal of his Christian commitment and a decision by Mr Fuller and his wife Linda to sell all of their possessions, give the money to the poor and begin searching for a new focus for their lives.

In 1976 the Fullers founded Habitat for Humanity International as a nonprofit, ecumenical Christian housing ministry dedicated to eliminating substandard housing and homelessness worldwide and to making adequate, affordable shelter a matter of conscience and

action. Habitat invites people from all faiths and walks of life to work together in partnership, building houses with families in need. From this simple beginning, Habitat has grown into an international organization with more than 1,500 affiliates in 59 countries. It has built some 70,000 houses around the world, providing more than 350,000 people (two-thirds of these are children) with safe, decent, affordable shelter.

The organization provides a hand up, rather than a hand out. Those who buy a Habitat home must invest not only their dollars, but their labor ("sweat equity") as well. In addition, the homeowners are expected to volunteer more of their own labor in helping to build other Habitat homes in their communities.

There are Habitat groups in Edmonton, Calgary, Red Deer, Grand Prairie, Lethbridge, and Camrose and thousands of Albertans have donated their time and resources to help build affordable housing.

In recognition of his faith, vision, personal sacrifice and commitment to the success of Habitat, Mr Fuller has been the recipient of a number of honorary degrees from universities in Canada and the United States, and in 1996 was awarded the Presidential Medal of Freedom.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Millard D Fuller:

Sarah Trimmer. *The Economy of Charity; or, an address to Ladies; adapted to the present state of Charitable Institutions in England*. London, Johnson, 1801. Two volumes.

The University of Alberta Library already has the first edition of Trimmer's important work, but this is the considerably expanded second edition. Trimmer wrote many works advocating education and social change for England's poor, and this significant text is a handbook for educating poor children. It also provides information on setting up soup kitchens, and discusses problems of children working in industries, their need for milk, their illnesses, and many other informed observations by this forward-thinking feminist writer.

Honorary Degree Recipient

The Chairman Emeritus of TransCanada PipeLines Limited and Vice Chairman of NOVA Corporation, Mr Gerald J Maier of Calgary has been a leader and a respected voice within Canada's energy industry for over four decades.

Mr Maier embodies the ideals and principles of unparalleled business leadership and outstanding community service. Born in Regina, Saskatchewan he attended Athol Murray College of Notre Dame and the University of Manitoba before moving to Edmonton to complete, in 1951, his BSc Eng degree. Upon graduation he began work as a petroleum engineer at Sun Oil Company in Calgary. In 1953 he joined Hudson's Bay Oil and Gas Company Limited. By 1980 he had been named Chairman and CEO. In 1985 he joined TransCanada PipeLines as its President and CEO. After becoming Chairman and CEO in 1992, Mr Maier spearheaded that company's international pipeline expansion project, one of the largest development projects ever undertaken by a single Canadian company. More recently he orchestrated, along with the Chairman and the Vice-Chairman and CEO of NOVA Corporation, one of the largest mergers in Canadian

history which joined TransCanada PipeLines with NOVA Corporation to create the fourth largest energy services company in North America.

Mr Maier's community service has been as accomplished as his business leadership. He has donated his time to many local, national and international organizations whose scope range from sport and fitness to support for higher education and health to national unity.

A former member of the University of Alberta Golden Bears Hockey Team, he has supported the activities of sport in many roles including as a Director of the 1983 Canada Summer Games in Calgary and as a Governor of the Canadian Olympic Foundation. In the education field, he was a member of the University of Alberta's Faculty of Engineering 75th Anniversary Fundraising Campaign and is currently the National Chairman of the fundraising campaign for Athol Murray College of Notre Dame. A proud Canadian, he lent his voice to the Council for Canadian Unity as a Deputy Chairman. He has served on 13 professional, business and technical associations.

Among his many honors, he was named a Fellow of the Canadian Academy of Engineering in 1989 and a member of the Saskatchewan Oil Industry in 1991. He was awarded the Medal of Honor from Athol Murray College of Notre Dame (1997) and was the recipient of the 1999 Canadian Business Leader of the Year Award from the University of Alberta's Faculty of Business. Mr Maier continues to be sought by industry and government alike for his insights and leadership.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Gerald J Maier:

Rev John Kerr. *Curling in Canada and the United States*. Edinburgh, Morton, 1904.

A splendid, highly detailed account of the North American tour of the Scottish Team in 1902-1903, an event described as "unique in the annals of curling." The nearly 800 page volume is lavishly illustrated, and the team's visits to Toronto, Montreal and Winnipeg, with the history of many curling clubs, are colorfully set forth. This is a rare and delightful addition to the Library's holdings documenting Canadian sport.

The list of candidates for degrees, diplomas and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically according to the establishment date of each faculty and degree. The winner of the most prestigious award in each Faculty, if attending, is presented first.

Honorary Degree Recipient

A highly acclaimed Canadian actor who performs in theatre, film, television and radio, Kenneth Welsh is acknowledged as one of the most talented and exceptional artists of his generation.

A native Albertan, Mr Welsh was born in Edmonton and graduated from Bonnie Doon High School. In 1962 he received his BA (Drama) from the University of Alberta and went on to obtain his Diploma (Acting) from the National Theatre School of Canada in 1965. He has been a professional actor, working continuously, extensively, and successfully ever since.

The sheer volume and diversity of Mr Welsh's work is amazing. His astounding range includes classical Shakespeare at Stratford, Broadway Theatre in New York, one-person shows, musicals, comedies, tragedies, television movies and series, and feature film in both Canada and the USA. He has appeared in 32 feature films, performed in excess of 25 theatre houses and has more than 60 television credits to his name. Included in the latter are a variety of docu-dramas, four-hour mini-series, long-running series and major works of fiction.

Some of his best known work includes the feature films *Absolute Power*, *Hiroshima*, *Whale Music* and *Loyalties*; the television movies *Love and Hate*, *Conspiracy of Silence* and the *Joe Torre Story*; and the theatre productions of *Little Foxes* and *Arturo Ui*.

While sustaining a career in the United States, his primary dedication has been to perform Canadian stories that comprise part of the canon of our mythology and heritage. Mr Welsh is by example and personal commitment an inspiration and model to students and emerging artists. His name is constantly mentioned by the National Theatre School of Canada to support its reputation as a major training institution for acting and to serve as a model for young students.

Among his numerous professional achievements, he is the recipient of five Best Actor Gemini Awards, including one in 1990 for portraying Colin Thatcher in *Love and Hate*. In 1998 he received a Genie Award for Feature Film Acting (for his portrayal of President Harry Truman in *Hiroshima*) and later that year was awarded the prestigious Earl Grey Award for Lifetime Body of Work.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Kenneth Welsh:

Colley Cibber. *An Apology for the Life of Mr Colley Cibber, written by himself*. London, Nimmo, 1889. Two volumes. One of 510 copies printed on special paper.

Cibber (1671-1757) was a famous actor on the London stage who played the fops of Restoration comedy as well as being a theatre manager. His autobiography, first published in 1740, has always been one of the most important and delightful books on theatre, but it is sometimes vague and also inaccurate. This monumental edition, edited by Robert W Lowe, contains extensive notes correcting errors and filling in facts, and it is lavishly illustrated with portraits of Cibber's fellow actors and playwrights. It is a fine addition to the Library's collection on theatre history, which also contains the first edition of Cibber's work.

The list of candidates for degrees, diplomas and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically according to the establishment date of each faculty and degree. The winner of the most prestigious award in each Faculty, if attending, is presented first.

University of Alberta Alumni Association

A Worldwide Alumni Family

As a graduate of the University of Alberta, you are part of the University's worldwide alumni family, now more than 165,000 members strong. University of Alberta graduates play leading roles in their communities and in the world. Internationally known U of A alumni include former Canadian Prime Minister Joe Clark; former World Conservation Union President Jay Hair; Nagoya University founder, the late Yuichi Kurimoto; former Alberta Premier Peter Lougheed; Nobel Prize winning physicist Richard Taylor; and the founders of the Spruce Meadows international equestrian facility, Margaret and Ronald Southern.

The Alumni Association encourages you to show

your pride in your alma mater and invites you to participate in the Association's programs and services. The University's alumni magazine, *New Trail*, will help you stay in touch with your alma mater and is circulated to all graduates of the University free of charge. Please call us if you change your address, name or job. We are committed to maintaining contact with our alumni wherever in the world they may live.

There are active alumni groups in more than 35 locations. These alumni branches provide welcome social and career contacts to the graduate moving to a new area. New branches are always being formed. If there is a branch in the city where you will be establishing roots, be sure to contact the representative listed. If there is not, contact the Office of Alumni Affairs to see if there are plans for one. You might like to help get it started.

The University Coat of Arms

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

Shield: a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

Crest: a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

Supporters: a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

Motto: *Quaecumque vera*. ("Whatsoever things are true," Philipians 4:8)

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

University Mace and Ceremonial Chairs

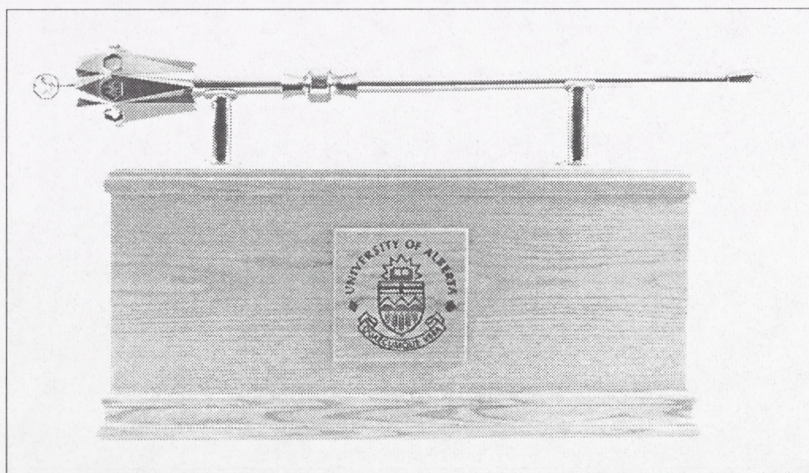

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. It was presented by his son, Michael Galbraith, on behalf of his father on May 26, 1970.

Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whatsoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process

was used to apply 24 karat gold to other parts of the Mace.

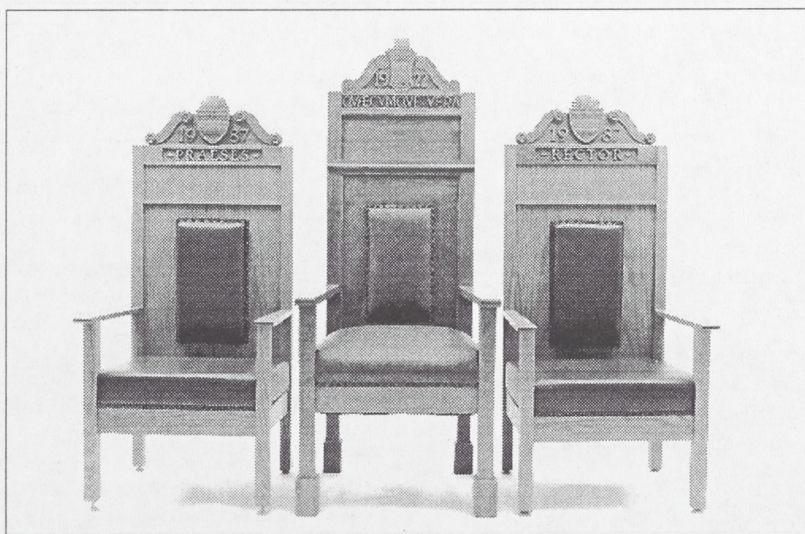

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power – but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

History of Convocation

In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the fourteenth century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts.

The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*. The Doctor was one who, having obtained the mastership, had successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colours the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in

the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board, the hard, square cap commonly used as academic headdress today, evolved from the softer, more flexible "square cap" that was introduced in England in about 1490 and is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. The following page provides a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a green cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Convocation Officer in the Office of the Registrar and Student Awards.

Academic Dress

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point. Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Master's hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels which are worn forward and to the left.

Doctorate Degrees

Doctoral gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctoral hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels which are worn forward and to the left.

Honorary Doctorates

Honorary Doctors of Laws, Letters, and Science wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.
